Our Mini Project
in the Specially
Protected Area
of Mediterranean
Importance
(SPAMI)

SPAMIday
15 April

“
*Discovering the
Marine Wonders
of the Landscape
Park Strunjan*
”

Where

The marine protected area (MPA) within the **Landscape Park Strunjan** (LPS) is the only Specially Protected Area of Mediterranean Importance (SPAMI) in Slovenia and the **largest SPAMI in the Gulf of Trieste and the northern Adriatic Sea**. The area is well known by the general public, but is largely under-appreciated, and few people are aware of its SPAMI status, or the importance it represents.

What to Expect

The project aims to promote the importance of the **Slovenian LPS SPAMI** for the conservation of local and regional marine biodiversity. The project builds upon an existing collaboration between **Morigenos** and LPS, using **dolphins as "ambassadors" for the SPAMI area**. An event will be held on **SPAMI Day**, featuring interactive activities at five different stations, while a marine education trail will be created for visitors to the LPS. The project will have a positive and lasting impact on local and national recognition of the LPS SPAMI, **marine biodiversity conservation**, and public awareness.

Partnerships and Resources

The project will be carried out by an employee with members of **Morigenos** and **LPS** staff. Funding will be provided in part by **SPA/RAC**, through the **SPAMI Twinning Programme**, implemented under the cooperation agreement between **UNEP/MAP-Secretariat of the Barcelona Convention** and the **Italian Ministry of Environment and Energy Security**.

Join Us

Explore the beauty of **Slovenia's marine biodiversity** and learn how to protect it at the **LPS SPAMI area!**

Don't miss the celebration on **15 April!**
